

Population Movement Monitoring

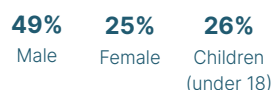

28 January 2025 - Update 2

The Site Management Working Group (SMWG), in collaboration with partners, has established six flow monitoring points in Deir Al Balah, Gaza City, and North Gaza to track population movements from south to north. These points operate daily from 7:00 AM to 6:00 PM (Gaza Time) across two shifts: 7:00 AM–12:00 PM and 12:00 PM–6:00 PM. SMWG will provide daily updates, with a cutoff time of 12:00 PM (Gaza Time). Reports will include data from the second shift of the previous day and the first shift of the current day. The reported data is cumulative, including the entirety of the previous day and the first shift of the current day (6:00 AM to 12:00 PM).

Movement Observations

Demographics

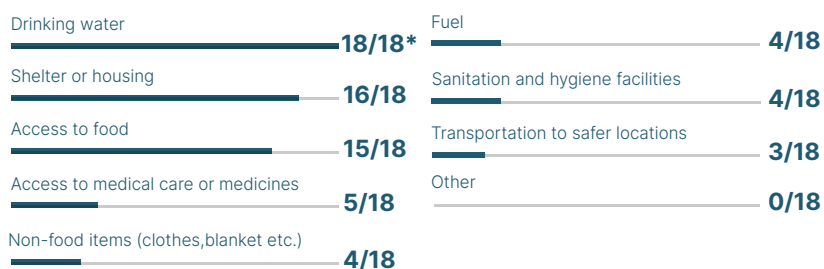

Mode of transportation

Observed intended destination governorate

Observed urgent needs

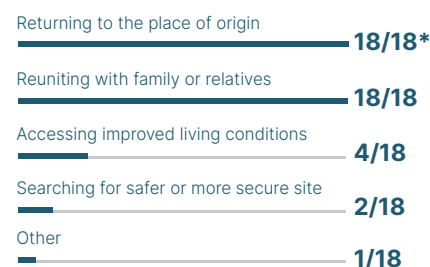

Total individuals observed crossing at the flow monitoring point

376,188

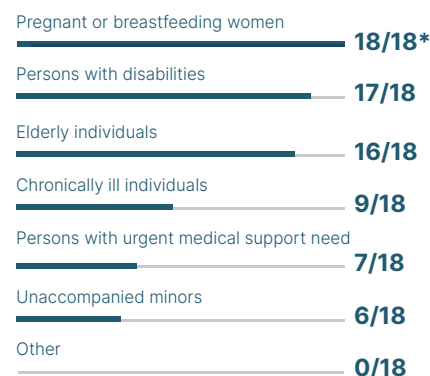

Departures from South

Observed reasons for the movement

Observed vulnerabilities

*Figures are based on observations, where each observation represents an enumerator's shift (7 AM–12 PM or 12 PM–6 PM) in a specific location.
